

General Information

Complete Mix is a carefully balanced fully natural preservative free “muesli” which mimics the gut content of a prey animal. When mixed with a preservative free fresh meat, it makes the perfect balanced diet based on which canines and felines have been eating for millions of years.

Add a couple of raw bones each week, and you are feeding what Mother Nature intended.

The 5 varieties include Adult/Senior, Puppy, Sensitive Skin, Weight Loss and Cat/Kitten.

It's Raw!

Dogs and cats are not designed or equipped to properly digest and absorb cooked food, as we humans are. They have been evolving on this planet for millions of years eating fresh food. Their mouths, teeth, stomach, intestines, organs and enzymes, are all evolved to masticate process, digest and absorb raw food

The ingredients of Complete Mix are air dried to prevent any thermal damage to proteins, vitamins and enzymes.

There is a growing stockpile of scientific evidence that links the long term consumption of cooked commercial pet foods, to the development of a vast array of common illnesses and degenerative diseases, including cancer. Skin disease and dermatitis, allergies, teeth and gum disease, arthritis, renal failure, ear infections, obesity, reproductive failure, and anal gland blockage can all be linked to improper nutrition.

Preparation

For best results, soak the Complete Mix in room temperature water for 24 hours or for immediate use soak and stir in hot water. By soaking the Complete Mix the palatability and digestibility is improved and it allows germination (activation) of the starch in the grains which increases their digestibility, nutritional value and bioavailability.

The Complete Mix and meat combination can be premade and refrigerated for 4 to 5 days or frozen for up to 6 months and then daily portions can be fed when required. One kg of Complete Mix will combine to feed an average sized dog for approximately 10 days and a cat for up to 3 weeks.

Weight Loss (Dog)

Body Weight (kg)*	Complete Mix (grams)	Fresh Water (mls)	Fresh Meat (grams)
5	55	55	50
6 - 10	100	100	85
11 - 15	130	130	115
16 - 20	175	175	150
21 - 25	200	200	175
26 - 30	225	225	200
31 - 35	250	250	220
36 - 40	280	280	240
41 - 45	315	315	270
46 - 50	350	350	300

*Feed to target weight.

Puppy (up to 2 years)

Body Weight (kg)*	Complete Mix (grams)	Fresh Water (mls)	Fresh Meat (grams)
0 - 1	25	25	70
2	30	30	100
3	40	40	120
4	50	50	160
5	60	60	200
6 - 10	100	100	320
11 - 15	150	150	420
16 - 20	200	200	600
21 - 25	250	250	750
26 - 30	275	275	850

Ingredients

Complete Mix contains a combination of mixed cereal grains (rolled oats, cracked barley, flax seed meal and whole oats), dried vegetables and fruit, dried garlic, dried parsley, dried barley grass, calcium powder, yeast powder, kelp granules, lecithin granules and vitamin C powder.

The Complete Mix Sensitive Skin formula has additional herbs and supplements which naturally target the cause of skin problems. It contains high levels of Omega 3 for healthy skin and a shiny coat, anti-oxidants for a healthy immune system and multi-strain probiotics for healthy digestion.

Specific Formulas

The range consists of 4 dog formulas including **Puppy**, **Adult**, **Weight Loss** and **Sensitive Skin** and 1 **Cat/Kitten** formula. The variations are designed to meet the individual needs of dogs and cats at different life stages and body conditions and carefully consider the level of growth, energy and nutrient requirements.

Complete Mix Typical Analysis

	Adult/Senior (Dog)	Puppy	Weight Loss (Dog)	Sensitive Skin (Dog)	Cat/Kitten
